## Humana will build a new elderly care home in Ängelholm

**Humana is building a new elderly care home in Ängelholm with 60 apartments at Sommarsöl in Vejbystrand. It will be Humana's tenth elderly care home under own management in Sweden and its second in the Skåne region.**

In March this year, Humana opened an elderly care home in Staffanstorps and now plans for a new unit in Ängelholm have been finalised. This construction is carried out by Sommarsöl Fastigheter, a mutually owned company between Odalen Fastigheter and Humana. The work begins in the autumn of 2019 with a planned occupancy during spring/summer 2021.

- We have had a very good dialogue with Ängelholm municipality and look forward to close cooperation with them, where we can be a quality operator in the municipality for the long-term, says Anders Broberg, Business Area Manager at Humana Elderly Care.

Humana elderly care homes offer a high-quality, individualized care, and the company has several units that belong to the top-rated ones in Sweden. All of Humana's elderly care homes under own management are of the same high quality regarding both the construction and the operations. Well thought-through colour schemes, an award-winning own lighting solution that helps the elderly to maintain their day/night rhythm, a rehab gym and a pleasant garden with greenhouses are all part of Humana's concept. This and large common areas in which to meet and have activities, create well-being and a welcoming atmosphere. The building will also be environmentally certified with the level Silver and Humana will invest in both solar cells and charging posts for electric cars.

- I want everyone who lives with us, their relatives and our employees to enjoy this home. That's why we build and operate our elderly care homes in a way that we ourselves would like to have it, says Anders Broberg.
